## **DETAILED ACTION**

### ***Claim Objections***

1. Claim 43 is objected to because of the following informalities: In line 1, it is believed that applicant should use the word "fracture" instead of "fraction". Appropriate correction is required.
2. Claims 7 and 19 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 7 and 19 teach the alumina at a level of 30%, which is higher than the limit of about 25% in parent claims 1 and 13.
3. Claims 1-6, 8-18 and 20-42 are allowable over the art of record.
4. The following is a statement of reasons for the indication of allowable subject matter: The prior art, while teaching several proppants comprising materials such as bauxite and quartz, fails to teach the specified proppant comprising the combination of talc, wollastonite, bauxite, quartz and shale as disclosed in the present invention.
